

# Shared Decision Making: Navigating Prostate Cancer Care

Shared Decision Making: Navigating Prostate Cancer Care aims to help people with prostate cancer and their care partners understand their role, empowering them to engage in care and treatment decisions with their healthcare team.

Through a series of video modules, coupled with resource guides, prostate cancer patients and care partners can feel more informed as they navigate care with their healthcare team.

Shared Decision Making: Navigating Prostate Cancer Care topics include:

Tools for self-education and self-advocacy.

How to build a relationship with your care team.

Learning your role in your prostate cancer care.

Advice for participating in shared decision-making.

Learning about cancer research and clinical trial participation.

Tips for living with prostate cancer.

Care partner support and resources.

Tools to help address barriers to care.

## WHO WE ARE

Patient Empowerment Network (PEN) is a 501(c)(3) nonprofit organization. PEN's mission is to fortify cancer patients and care partners with the knowledge and tools to boost their confidence, put them in control of their healthcare journey, and assist them in receiving the best, most personalized care available to ensure they have the best possible outcome.
